

Family First Health is proud to offer board certified physicians and mid-level providers of medical, dental and social services. We are conveniently located throughout York and Adams counties with offices in York City, Hanover, Lewisberry and Gettysburg.

In 2013, Family First Health's Gettysburg Center was the medical and dental home of choice to 3,464 patients with 9,134 individual visits.

Family First Health – Gettysburg Center

1275 York Road, Suite 17, Gettysburg, PA 17325 • (717) 337-9400

In keeping with our over 40 year commitment to meet the evolving needs of the communities that we serve, Family First Health is currently focused on building capacity to meet growing patient demand while purposefully enhancing the services we offer. In 2014, we are focused on the integration of behavioral health services with primary medical care and providing support to our patients and the community with enrollment in expanding health care coverage options.

Uninsured Medical and Dental Patients served in 2013

+ Beyond Health Care

Poor health can be caused by many factors that occur outside the walls of a medical facility, such as poverty, unstable housing, poor nutrition, lack of education, and language barriers. For these reasons, Family First Health offers supportive services that remove barriers to care and improve our patients health and economic wellbeing.

Dental Outreach

"Kids Against Cavities!" — pediatric mobile outreach to vulnerable children in our community — served 175 children under the age of 3 in 2013.

Enrollment Services

Patient navigators educated 80 community members on health insurance exchanges and coverage and benefit options.

Nurse Family Partnership

We pair low-income, first-time parents in with caring nurse home visitors to improve their health and well-being. In 2014, we estimate we'll help 25 families.

Caring Together

We offer high quality care for patients who are HIV positive.

+ Serving Everyone

Family First Health makes a difference in the health and quality of life of the people and communities we serve by:

Providing quality, compassionate primary medical and dental care and social services to those who need it most;

Coordinating care and working with other providers to provide the full range of services our patients need;

Promoting and supporting healthy lifestyles;

Collaborating with others to improve access and break down the barriers of affordability, language and culture; and advocating for our patients and the medically underserved.
